

Mr. Shivanand Mohan

Head, Learning & Development

Larsen and Toubro

Mr. Shivanand Mohan, a BITS Pilani & IIM Kozhikode alumnus, delivered an inspiring talk to MBA batch of 2021. Mr. Mohan also owns an engineering school in a small town of Maharashtra to promote technical skills development & education. His talk with the students reflected on values and learnings that are most in demand among the corporate recruiters. He focuses on self-development and strongly advises to reject relative development which, according to him, is the primary source of stress in one's life. Apart from the talk, he also suggested books and podcasts which will help MBA students to expand their thinking skills.

Date: 16th December 2019

Venue: Seminar Hall, SIBM-Nagpur
