

**Launch of MBA ( Food and Agri Business Management ) program from Academic Year  
2022-23**

SIBM Nagpur is pleased to offer a new MBA program, MBA (Food and Agri Business Management), from the Academic Year 2022-23. This will be a highly specialized program, focussing on the business operations in the Food and Agri Business Sector. SIBM believes in being proactive to the requirements of the corporate sector. While Agri business today is the third largest contributor to the GDP, the processed and frozen food business sectors have been growing at a very fast pace. These sectors will need skilled managers to manage both backend as well as front end operations. This program will seek to address those needs. It is a practical and application based program, with emphasis on project work in all semesters. The fees have been adjusted due to the sensitivity of the sectors, and the program will be non – residential. Admission to the program will be through SNAP, and registration for the same will be through the SNAP portal will be enabled shortly. Nagpur domicile candidates will continue to get the same concessions as all programs in the Nagpur campus.

Candidates will be required to register separately for this program, if they have registered for the General MBA program earlier. These are 2 distinct programs, and registration fee will be payable for both separately.
